Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 13-27 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 20, 42 and 61 of U.S. Patent No. 6,188,989. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 13, 24 and 25 of the instant application are directed to a similar subject matter contained in claims 1, 20 and 42 of the '989 patent. The only difference between the instant application and the '989 is merely a labeling difference. It is noted that all the features of claims 1, 20 and 42 are contained in claims 13, 24 and 25 of the '989 patent.

3. Claims 13-27 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 15

of U.S. Patent No. 6,167,380. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 13, 24 and 25 of the instant application are directed to a similar subject matter contained in claims 1, 20 and 42 of the '380 patent. The only difference between the instant application and the '989 is merely a labeling difference. It is noted that all the features of claims 13, 20 and 42 are contained in claims 1 and 15 of the '380 patent.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 25-35 are rejected under 35 USC 101 because it is directed to non-statutory subject matter, specifically as directed to an abstract idea.

The basis of this rejection is set forth in a two prong test of:

- (1) whether the invention is within the technological arts; and
- (2) whether the invention produces a useful, concrete and tangible result.

For a claimed invention to be statutory, the claimed invention must be within the technological arts. Mere ideas in the abstract (i.e., abstract idea, law of nature, natural phenomena) that do not apply, involve, use or advance the technological arts fail to promote the "progress of science and the useful arts" (i.e., the physical sciences as opposed to social sciences, for example) are found to be non-statutory subject matter. For a process claim to pass muster, the recited process

Art Unit: 3628

must somehow apply, involve, use, or advance the technological arts. In the present case, claims 25-35 do not recite any structure or functionality to suggest that a computer performs the recited claims. Thus, claims 25-35 are rejected as being directed to non-statutory subject matter.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frantzy Poinvil whose telephone number is (703) 305-9779. The examiner can normally be reached on Monday-Thursday 7:00AM-5:30PM.
